

Nature Alberta Annual Report for 2018

This is our second year as club representatives with Nature Alberta. Several meetings were held during the year --- March 24, May 8, and December 8. We did not attend the meetings in person, but listened in via teleconference.

Some of the highlights from the meetings were as follows:

1. The e-magazine is continuing to be available to all members for free.
2. Nature Alberta has a total of 35 member clubs.
3. The e-newsletter is available for the members to read --- just sign up on the Nature Alberta website.
4. Since Nature Alberta will soon be 50 years old (in 2020), it was decided to restructure or rewrite the Vision, Mission, Objects of Society, Goals, etc.
5. The financial stability of Nature Alberta is not great and there is a continuous application of grants to help support the club.

The next Nature Alberta meeting is being held this spring in Edmonton, but no date has been announced.
