

Fund Raising Committee Report to GN AGM, June 28, 2022

2021 was another fairly quiet year for Fund Raising due to imposed COVID restrictions.

We again received a \$500.00 donation from Methanex, which has been earmarked for the upcoming Climate Change Symposium. If that doesn't happen we can ask Ian, as GN rep to the Methanex Community Advisory Panel, for his preferences.

We also were successful in receiving the Eco-Trust Alberta Grant of \$3850.00 for the Scenic Views of Medicine Hat project and will be applying again in July, 2022 for enough funds to complete the remaining SV Signs

We did apply to TD Friends of the Environment Foundation for a \$10700.00 Grant to complete the above SV Signs, but were unsuccessful. Fortunately, they did award a grant to the MHIP

Following our successful Casino at the end of Feb, 2022 we have received Casino Funding of \$12909.00. Thank you to all the volunteers and a special thanks to Bruce Mcleod and Elaine Zimmer for managing it for us. Well done all!

And that's the extent of our 2021-22 activity this past year.

Respectfully submitted,

Hugh Armstrong,
